Green Elite™ Training & Duty Shotgun Ammunition

International's Green Elite™ Frangible Shotgun Ammunition sets the standard in pattern size and low recoil. These frangible rounds are safe for use on 1/4" AR 500 steel, with reduced splash-back, and virtually eliminate damage to targets. Our rounds allow officers to train tactically in close-quarters, which was never possible with conventional rounds. Our ammunition will help create confidence with more realistic training scenarios.

"This ammo allows safe training, up close and personal, with steel targets"

International's Green Elite™ Duty & Training Buckshot offers frangible buckshot in 9 pellet cartridges.

International's Green Elite™ Duty & Training Shotgun Slug can also be used for up close training on steel. Lighter recoil and consistent accuracy give this frangible round a large advantage over conventional slugs.
